syn DIRTY, FILTHY, FOUL, NASTY, SQUALID *shared meaning element*: conspicuously unclean or impure. DIRTY emphasizes the fact of the presence of dirt more than an emotional reaction to it (children dirty from play) (a dirty littered street) FILTHY carries a strong suggestion of offensiveness and typically of gradually accumulated dirt that begrimes and besmears (a stained greasy floor, utterly filthy) FOUL implies extreme offensiveness and an accumulation of what is rotten or stinking (the foul oil-and-garbage whiffs from the river — Herman Wouk) NASTY applies to what is actually foul or is repugnant to one used to or expecting freshness, cleanliness, or sweetness (it's a nasty job to clean up after a sick cat) In practice, nasty is often weakened to the point of being no more than a synonym of unpleasant or disagreeable (had a nasty fall) (his answer gave her a nasty shock) SQUALID adds to the idea of dirtiness and filth that of slovenly neglect (living in squalid poverty) (*squalid* slums)

All these terms are applicable to moral uncleanness or baseness or obscenity DIRTY then stresses meanness or despicableness (the creature's at his dirty work again — Alexander Pope) while FILTHY and FOUL describe disgusting obscenity or loathsome behavior (filthy language) (a foul story) and NASTY implies a peculiarly offensive unpleasantness (a cheap and nasty imitation of the real thing — Robert Wilkes) Distinctively, SQUALID implies sordidness as well as baseness and dirtiness (her life was a series of squalid affairs) *ant* clean

syn EXCUSE, CONDONE, PARDON, FORGIVE *shared meaning element*: to exact neither punishment nor redress for (an offense) or from (an offender) Both *excuse* and *condone* imply a passing over without censure or meet punishment. Distinctively, one may EXCUSE specific acts especially in social or conventional situations or the person responsible for these (*excuse an interruption*) (always ready to excuse her children for little faults) Often the term implies extenuating circumstances (injustice excuses strong responses) or in some contexts self-justification (always ready to excuse himself from any responsibility for the results of his behavior) One more often CONDONEs a kind of behavior (as dishonesty, folly, or violence) and especially one that constitutes a grave breach (as of a moral or legal code) or a person or institution responsible for such behavior (a culture that condones drink but not drugs) Pardon and forgive are often interchangeable, but their implications can be distinct. One PARDONS when one remits a penalty rightfully due for an admitted or established offense (pardon a criminal) (pardon the noisy enthusiasm of a child) One FORGIVES when one gives up all claim to requital and to resentment or vengeful feelings (to err is human, to forgive divine — Alexander Pope) *ant* PUNISH
